## TESTIMONIAL

*We at ELHT have been using Upholstery2u for over a year now and it's been an enjoyable partnership. The idea of having a company on the doorstep who can offer a full re-covering service for our patient treatment couches and chairs on-site, with minimal downtime for clinical and outpatient services, is great. It also brings previously-discarded furniture back into use, prevents perfectly usable items going to waste and helps with the budget. The team who come to site are very professional and polite and I have to say everyone at Upholstery2u are easy to work with – they offer a great service!*
